### PLANT TEAM PROJECT

Lecture: Have any of you kids ever been out in the woods before? Okay well were going to tell you some things that will help you when you're in the woods. Now ( hold up back board with pictures on it) can any one tell me which one of these pictures is poison ivy? What about poison oak? And poison sumac? Alright now we're going to take a little test on the rules you should follow when we're walking in the woods. It's a true or false quiz so it shouldn't take to long.(give quiz then go over answers).
